

Friatool Scraper Blade Replacement Instructions

FWSG63; FWSG225; FWSG710L & FWSG710S

- Note: Blades are colour coded to suit different scraper sizes
 - FWSG63 GREEN (Code FWSGE4)
 - FWSG225 RED (Code FWSGE3)
 - FWSG710 S & L BLUE (Code FWSGE5)
- Step 1: Take note of cutting edge with machined depth gauge. This should be at the bottom when inserted. **Note: Blades can only be used one way and do not have multiple cutting edges.**
- Step 2: Remove blunt blade. Use only the correct Screw Tool provided
- Step 3: Insert new blade in correct position with the raised portion cornered into the blade bracket and the cutting edge with the depth gauge and cutting edge positioned at the bottom.
- Step 4: Use only the correct Screw provided, a star formation, and the correct screw tool also provide with replacement blades.
